aws

TRAINING AND CERTIFICATION

Step-by-step guide to taking the AWS Practice Exams

5 free practice exams to prepare you for AWS certification.

Step 1

Go to **explore.skillbuilder.aws** and login.

Step 2

Type in the search box: *AWS Certification Official Practice Question Sets*. Then select the package with the same name.

Step 3

After selecting the package, click on "**ENROLL**".

Step 6

Write down the redemption code and access the given link. When accessing the certifier's page, click on "**Redeem Access Code**" and enter the code.

Step 5

Select your training again and click on "**Starting Learning Now**".

Step 4

You will receive a subscription confirmation message. Select "**View my Courses**".

Step 7

Complete the fields, create an access password and click on "**Confirm**". Now, just click on "**Start studying**" to access the list of practice exams.

Step 8

Select one of the practice exams listed in the package and click "**Start**" to get started.
